PROPOSALS.

county, a paper to be called the STATE RIGHTS SENTINEL & ADVOCATE

Devoted to Science, Literature and Politics. N its political character: the Advdcate shall adhere rigidly to the Republican doctrines of the Jeffersonian school. Its object shall ever be the dissemination of political truth, unshackled by party prejudices, uninfluenced by MERE NAMES, and unawed by power; but ever FIRM in the support of PRINCIPLE, ever remembering that the great bject of all good governments is the greatest happiness of the greatest number. Supporting men only so far as they are instruments in advan cing the measures of the old Democracy; opposing the re-establishment of a National Bank, either with or without modification of the old charter, or the substitution of a Gallatin for a Biddle. as unconstitutional, inexpedient and distructive alike of both morals and liberty; and will support the present executive in his adherence to a divorce of Bank and Government, as well as in all other measures tending to relieve the south from her pecuniary vassalage from Northern capital. isfs. It will ever be found on the side of democracy, and will countenance only with the smile of derision, the pretensions of either a Clay, a Harrison, or a Webster, and will support no man for any State office, who is not UNEQUIVOCALLY opposed to the political views of the above nam-ed persons. Van Buren and Independent Treasury any Federal Whig.

It will also be a strenuous advocate for both thS rights and resources of the State of Mississippi, endoavoring satisfactorily to prove, to prove that her pecuniary and political greatness depends almost entirely on the productiveness of her soil and industry of her citizens.

To hold a mirror up to the northern politicians, and show them that the hour of retribution is fast hastening, That as a State, we are no longer willing "to crawl about and peep between their legs." That as steam power has revolutionised all navigation, so cotton is henceforth to become the un-REGULATED REGMLATOR of exchanges, and that they will have to admit a competitor in one whom sterday abooked upon with the smile of se she iamely submitted to be onged. That the north have been

factors of the south long enough, othing but THEIR BANK CREDIT, and OUR PRO-DUCE for their CAPITAL. That the spirit of TRUE greatness is in Mississippi, its MEANS are within its grasp, and it is vain as week to attempt u denial of results, that each day is rendering more plain, more important, and more irreesistable.—
That Mississippi can only be robbed of her rights,
by being first deprived of her intelligence, wherehy she will loose the consciousness of being posty Eight sessed of any.

there is but one source whence danger to this great and free nation continuing as ONE UNDIVIDED WHOLE, is seriously to be apprehended -an interference with, to us, the delicate and sensitive question of right of property. That Mississippi, together wite the whole south, will stand by the constitutional institutions of the country; but that the slightest intermedling with their "Demestic Relations," will cause them to entrench themselves behind the bulwark of their Reserved Rights.

JOSEPH RIDDLE, Jr. Grenada, Sept. 26th, 1838.

BANK OF McEWEN, KING & CO., Holly Springs, Oct. 10, 1838. A tution of this day, it was

Rasolved, That a committee of five be appointed, to examine the transactions of the bank, and report whether any money has been issued lince the 5th day of March last, at which time the board of directors resigned, and that the result of the inves-tigation of said committee be published in the paper printed at Holly Springs. L. D. Henderson, J. S. Curtis, Lee Compere, J. Y. Smith, and R. H. Pattillo, were appointed the committee.

The committee having made the investigation required by the above resolution, are authorized to state that the last discounts made by this institution, were made by order of the board, on the fifth of March last, at which time the directors resigned. The business having been first transferred to three commissioners for final adjustment. Since that time there have been no discounts

effected, and in fact no authority vested either in the commissioners or in any other body to make discounts for this institution. The commissioners | gay, the studious and the severe. gave out smaller bills in exchange for larger ones, as a matter of accommodation, as long as they had them to give. The actual amount in circulation, nowever, was not increased one dollar by this operstion; and in fact since the fifth of March, considerably more than half the entire amount of issues have been taken up; & the commissioners are using every effort to reduce the issues and close the business as speedily as practicable.

It may be proper to state that an Exchange Office has been established in Holly Springs, by a respectable company of gentlemen, operating under the name of McEwen, King and Co. that has no

PROPOSALS For publishing at Dresden, Weakly county. Ten., a Weekly Newspaper, to be styled

THE TENNESSEE PATRIOT. EDITED BY J. LEIGH.

THE custom of the times has rendered it necessory that those who would assume the resconsible station of Editor, should first lay before the public an expose of the principles by which the proposed publication will be governed—together with the course which it is designed to pursue amid the vexed political questions of the day. To do this, is the object of the following

The more candid of all political parties do not attempt to disguise the fact, that a large majority of the people of Tennessee are from principle, Democratic Republicans of the Jeffersonian school
—attached to doctring advanced and the course
pursued by the late administration. It is true that an attempt has been recently made by some of her recreant sons, to persuade their allies abroadthat Tennessee has forsaken the ground she has so long and so proudly occupied, and that she is now ready to be transferred, as a willing bride, to the less the defendant shall appear before a arms of whomsoever the leaders of the whig party may select as her future apouse; but the more intelligent part of the community know that the warriors of New Orleans and their sons are made of sterner stuff-that their flag has never fallen before a foreign foe-and that it never can be low- property so attached will be sold ered in the presence of a domestic enemy of their country and its institutions.

Meanwhile it is notoriously true, that every press in this district (with one honorable exception) has gone over to the ranks of our enemy, so that in many instances the people are deprived of the means of forming a correct judgment with reference to important political measures. Frequently does it occur, that for the purpose of obtaining local news, members of the Democratic party are compelled to patronise a press, devoted soul and spirit to the propogation and diffusion of senti-ments which we hold to be alike unconstitutional and impolitic; and as in many cases, they are either mable or unwilling to subscribe to more than one newspaper, they are far from being as fully acquainted with the views and intentions of their own party, as they should be; whilst we have no doubt that many honest men are Federalists, simply because they do not know how selfish are the views and how ignoble the aims of the sor DISANT

leaders of their party.

That these difficulties may be obviated in this portion of the State, the PATRIOT will be forthwith established. It will not be a violent party print, nor will it abuse those who may chance to differ with us in sentiment. On the contrary, its columns shall always be open to the temperate dis-cussion of any political question. Believing that, next to the Immortal Washington, the country is most indebted to ANDREW JACKSON for the preservation of those liberties which were purchased with the blood and treasure of the glorious heroes of '76-warmly attached to the principles which marked his administration, and convinced MARTIN VAN BUREN, THE REJECTED OF THE SENATE, is, from the long and confidential relation which he sustained toward "the sage of the Hermitage," better qualified than any other candidate likely to be before the people at the next election, to carry out those principles; we shall accord to him our humble support, and shall advocate the measures which have so far marked his adminis-

We will support a system of internal improvenents to be carried on under the patronage of the States, and will oppose any system of the kind intended to be supported by appropriations from the Treasury of the General Government. We will advocate a prudent and judicious system of bank-ing institutions under the authority of the States. and will oppose a National Bank whatever form it, may assume; the abolition of slavery in the District of Columbia, and any tariff not rendered necessary by the wants of the Government.

A portion of the paper will be devoted to light reading—considerable attention will be paid to agriculture, and the usual space occupied with an account of the markets, foreign and domstic intelligence, &c. &c. In a word, we intend to make it a news paper, designed to amuse as well as in-struct, for the old and the young, the Farmer, the Mechanic, and the Merchant, the grave and the CONDITIONS.

The Patriot will be published weekly, at three the end of the year. The first No. will make its. appearance about the 15th of November next Dresden, Ten. Sep. 8, 1838.
